# INDIVIDUAL AGENCY NEWS

## MHRA - UK

### UK-wide licensing for human medicines

This guidance is designed to provide information on the implementation of changes to the licensing of medicines for human use in the UK following the agreement of the Windsor Framework. The Windsor Framework will be implemented from 1 January 2025.

<https://www.gov.uk/government/publications/uk-wide-licensing-for-human-medicines/uk-wide-licensing-for-human-medicines>

### Labelling and packaging of medicinal products for human use following agreement of the Windsor Framework

This guidance is designed to provide information on the implementation of labelling and packaging requirements for medicinal products for human use following agreement of the Windsor Framework.

<https://www.gov.uk/government/publications/labelling-and-packaging-of-medicinal-products-for-human-use-following-agreement-of-the-windsor-framework/labelling-and-packaging-of-medicinal-products-for-human-use-following-agreement-of-the-windsor-framework>

### Clarifications on parallel import licences and arrangements

This updated web-page provides clarity on how to get a parallel import licence for your medicine in the UK, including pharmacovigilance requirements and submitting your application.

<https://www.gov.uk/guidance/medicines-apply-for-a-parallel-import-licence#full-publication-update-history>

## FDA - USA

### FDA Issues Final Guidance on Human Factors Engineering Principles for Combination Products

The U.S. Food and Drug Administration (FDA) issued this final guidance, to help facilitate the development of combination products. This guidance contains questions and answers for industry on applying human factors engineering (HFE) principles to the development of combination products. The guidance clarifies how the unique aspects of a combination product influence the considerations within the HFE process. This guidance finalizes the February 2016 draft version entitled Human Factors Studies and Related Clinical Study Considerations in Combination Product Design and Development. Changes from the draft to the final guidance include deleting human factors information that is redundant with other FDA guidance documents, clarifying the combination product critical task definition, and further explaining considerations to help identify combination product critical tasks.

[https://www.fda.gov/regulatory-information/search-fda-guidance-documents/application-human-factors-engineering-principles-combination-products-questions-and-answers?utm\\_medium=email&utm\\_source=govdelivery](https://www.fda.gov/regulatory-information/search-fda-guidance-documents/application-human-factors-engineering-principles-combination-products-questions-and-answers?utm_medium=email&utm_source=govdelivery)

### FDA Issues Guidance for Industry on enhanced drug distribution security at the package level (under the drug supply chain security act )

The U.S. Food and Drug Administration (FDA) issued this guidance, to assist supply chain stakeholders, particularly trading partners, with requirements for enhanced drug distribution security at the package level which goes into effect on November 27, 2023.

## NMPA - CHINA

### China's NMPA Adjusts Medical Device Classification Catalog

On August 17, the NMPA announced that its classification catalog would be adjusted given the influx of new innovative devices. Fifty-eight product categories have been updated. However, only 4 product categories have been changed from Class 1 to Class 2 or from Class 2 to Class 3 due to increased risks according to clinical experts. 8 product categories have been changed to lower classification from Class 3 to Class 2 or from Class 2 to Class 1 .

[https://www.pacificbridgemedical.com/news-brief/chinas-nmpa-adjusts-medical-device-classification-catalog/?](https://www.pacificbridgemedical.com/news-brief/chinas-nmpa-adjusts-medical-device-classification-catalog/?utm_source=Medical+Main+List&utm_campaign=8a34d4f086-mailchimp_email_2019-07_newsletter_english_COPY_01&utm_medium=email&utm_term=0_b8b603ce3c-8a34d4f086-58462561)

## PMDA - JAPAN

### Japan Reveals More Information on Expediting SaMD Registration

Japan is planning to implement a two-step registration process for SaMD products in early 2024. If a SaMD product shows strong safety and efficacy, it will get initial approval. Later, if the SaMD shows safety and efficacy in clinical use or during a post-market study, a second approval will be granted. To facilitate this process, the PMDA will enlarge its existing SaMD review staff. In addition, a brand-new subscription-type service will be established to allow SaMD manufacturers access to multiple consultation sessions in a fixed time frame with the SaMD review staff.

<https://www.pacificbridgemedical.com/news-brief/japan-reveals-more-information-on-expediting-samd-registration/>

## MPA - MALAYSIA

### Malaysia Now Offers New Medical Device Consultation Services

In the past, it was not possible to meet Malay MDA officers face-to-face. They were always resource-constrained and did not have time. However, on August 2, Malaysia's MDA announced new consulting services for device manufacturers seeking registration approval in Malaysia. Two types of regulatory consulting services are now available – 1. Consulting package services and 2. Non-package consulting services.

[https://www.pacificbridgemedical.com/news-brief/malaysia-now-offers-new-medical-device-consultation-services/?](https://www.pacificbridgemedical.com/news-brief/malaysia-now-offers-new-medical-device-consultation-services/?utm_source=Medical+Main+List&utm_campaign=8a34d4f086-mailchimp_email_2019-07_newsletter_english_COPY_01&utm_medium=email&utm_term=0_b8b603ce3c-8a34d4f086-58462561)

## FDD - LAOS

### Laos Announces First Ever Medical Device Registration Requirements

On September 9, Laos will implement its first-ever medical device regulations. While in 2011, a registration policy was discussed, medical device registration was not implemented. Laos' Ministry of Health Food and Drug Department (FDD) has outlined the required registration documents and specific registration procedures. Laos' policies basically follow the 2015 Medical Device Directive for ASEAN.

[https://www.pacificbridgemedical.com/news-brief/laos-announces-first-ever-medial-device-registration-](https://www.pacificbridgemedical.com/news-brief/laos-announces-first-ever-medial-device-registration-requirements/#:~:text=Laos%20Announces%20First%20Ever%20Medial%20Device%20Registration%20Requirements,-September%205%2C%202023&text=On%20September%209%2C%20Laos%20will,device%20registration%20was%20not%20implemented.)

REGULATORY  
CONSULTING

One of Scotland's most  
experienced independent  
consultancies.

Serving the  
Pharmaceutical Industry  
with European Regulatory  
Affairs consultancy,  
training, procedural and  
submissions support.

Offices in the UK and  
Ireland and a worldwide  
team.

We are able to provide  
flexible "full service"  
regulatory support to our  
clients.

However large or small  
your business, and  
wherever you are on the  
globe, we can provide you  
with experienced  
regulatory affairs support.

Including:  
Early development  
strategy  
Clinical trial applications  
MAAs / Device files  
Lifecycle Maintenance  
Borderline product  
ATMPs / ODDs

Our experts are  
everywhere
